It is a superb game in both graphical and gameplay aspects. It is a legendary game. This time I want to introduce the game that managed to surprise me by being a game that I didn't know something about. It is the game, Elf Arq, and I would like to introduce you to it. 1) Protagonist He is a cute elf named Yuzo. He is a high school student who has been living alone all his life. Yuzo In the game you can see a character of young man who appears to have a strong sense of responsibility and works extremely hard for his school. Since the setting is the fantasy world, I created a game where, with the exception of such things as buildings, wild animals, and environments like forests, no natural scenery was left. I made an effort to create a game that was different from a game of the same genre, such as, for example, an MMORPG. 4) Equipment and

**Expression of interleukin-2 receptor and macrophage migration inhibitory factor in the lamellar body of the bovine trabecular meshwork. The present study investigated a possible relation between the expression of interleukin-2 (IL-2) receptor and macrophage migration inhibitory factor (MIF) in bovine trabecular meshwork. For that purpose, 90, 180, and 270-nm thick sections of bovine trabecular meshwork were immunostained for IL-2 receptor and for MIF as detected with peroxidase anti-peroxidase complex and immunogold methods. Both antibodies were distributed in the granules of the lamellar bodies, but only MIF was present in the cytoplasm of the cells. This finding suggests the presence of MIF in the conjunctival drainage facility, suggesting that this may be of importance when studying the immunological role of the inflammatory response of the trabecular meshwork.**
